

## ABSTRACT OF THE DISCLOSURE

An housing is configured for connection to the raceway panels by removing the concrete above the raceway panel, cutting a hole in the raceway panel, and securing the housing in the hole in the raceway panel. Alignment clips allow the 5 afterset housings to be ganged together to form an integral afterset assembly. Each alignment clip is configured to slidably engage with a pair of the afterset housings.

*✓ 6/11/01*

In one embodiment, the afterset housing ~~comprises~~ <sup>includes</sup> a preset housing that is normally configured for connection to the raceway panel prior to pouring of the concrete floor, and an adapter connectable to the preset housing and being constructed to 10 ~~reconfigure~~ <sup>reconfiguring</sup> the preset for use as an afterset housing which is adapted for connection to the raceway panel following pouring of the concrete floor.
